

CAPABILITIES STATEMENT

Renewable Energy Project Delivery

Building America's Clean Energy Infrastructure

Commercial & Utility-Scale Solar Construction • Battery Energy Storage • Owner's Representation • EPC Support

COMPANY OVERVIEW

T-One Energy is a renewable energy project delivery company specializing in utility-scale solar, commercial rooftop solar, battery energy storage systems (BESS), and owner's representative services. Our team brings hands-on experience supporting projects from early development through engineering, permitting, procurement, construction, commissioning, and commercial operation — serving developers, EPC contractors, utilities, government agencies, and commercial clients nationwide.

CORE CAPABILITIES

- ▶ Owner's Representative Services
- ▶ Project Development Support
- ▶ Construction Management
- ▶ EPC Oversight & Contractor Coordination
- ▶ Pile Installation Oversight
- ▶ Racking Installation Management
- ▶ Module Installation Oversight
- ▶ Mechanical Installation
- ▶ QA/QC Programs
- ▶ Foundations & Ground Screws
- ▶ Schedule & Cost Management
- ▶ Safety Oversight

PROJECT TYPES

- ▶ Ground-Mount Utility-Scale Solar
- ▶ Commercial & Industrial Rooftop Solar
- ▶ Battery Energy Storage Systems (BESS)
- ▶ EPC Support Projects

MARKETS SERVED

- ▶ Utility Scale
- ▶ Commercial & Industrial
- ▶ Government
- ▶ Healthcare
- ▶ Higher Education
- ▶ Utilities

WHY T-ONE ENERGY

OWNER MINDSET

We understand projects from the owner's perspective — not just construction.

RISK MANAGEMENT

Proactively identifying schedule, budget, quality, and commercial risks before they impact project performance.

PROJECT DELIVERY EXPERIENCE

Supporting renewable energy, federal, infrastructure, and healthcare capital projects valued at hundreds of millions of dollars.

NATIONWIDE SUPPORT

Supporting projects across the United States.

PROJECT LIFECYCLE COVERAGE

DEVELOPMENT → ENGINEERING → PERMITTING → PROCUREMENT → CONSTRUCTION →
COMMISSIONING → COMMERCIAL OPERATION → ASSET TURNOVER
